

# Fame Factory, Chasing Rainbows

"I can see the horizon  
Every cloud running away  
And in the sky, recreated  
Promises painted with faith

And so far away  
So far away

Even if it's raining  
The sun will shine  
Can you see the colour  
Falling from the sky  
Now, don't you worry baby  
It'll be alright  
And what tomorrow brings, baby, only heaven knows  
Everybody's chasing the rainbow

And what ever the weather  
We can find our way of go  
Dreaming 'bout something better  
And when we're dreaming, the brighter it goes

And so far away  
So far away (It's getting closer, closer)

Even if it's raining'

Feel it getting brighter baby  
Do you see the light  
Get a little closer, honey  
It'll be alright

Even if it's raining'&quot;
