Fame Factory, Chasing Rainbows

"I can see the horizon Every cloud running away And in the sky, recreated Promises painted with faith

And so far away So far away

Even if it's raining
The sun will shine
Can you see the colour
Falling from the sky
Now, don't you worry baby
It'll be alright
And what tomorrow brings, baby, only heaven knows
Everybody's chasing the rainbow

And what ever the weather
We can find our way of go
Dreaming 'bout something better
And when we're dreaming, the brighter it goes

And so far away So far away (It's getting closer, closer)

Even if it's raining'

Feel it getting brighter baby Do you see the light Get a little closer, honey It'll be alright

Even if it's raining'"
