

Fame Factory, Could This Be The Moment - Victoria

Could this be the moment I've been waiting for
All of my life
It's a love that I feel include this
Before real
I don't know
Could this be the moment I've been waiting for
All of my life
It's a love that I feel include this
Before real
Isn't soled

I get lost
All the days
Going down
Falling deep under your spell
And the way that you movin
You grooving
So reasoned that I fell, hey
When you holding me tight
I can fend and surrender to your kiss
Cause I feel my defences go down
When you doing me like this

REF:

Even do, I don't know
What I do
Why I'm ever wanna stop
Cause the way that you making me fill
Takes me straight up to the top (hue)
Flying high
Makes me right
On the fill that I fall
I wouldn't fine
But it's here when you're near
And I loosing
Was used been up mine mind (yeah, ye)

REF:

Could this be the moment?
I've been waiting fore
