

Fame Factory, Devil In Me - Elin Hedberg

In the store by the boulevard
I'm playing the devils card
But I cannot step when she's around

I'm telling her to make up her mind
There are better things to find
You just gotta search on the other side

Watch when the sky falls down

(Chorus)
Devil in me cannot make it her
She's the problem I am not
Fallin' angel smile in my face
Pulls me deeper in to the dismiss

When I had it for 35
In a disappointed time
With a bitter taste on my younger years
Maybe I'll be better then
Maybe I will like it then
To see somebody's life go down

Watch when the sky falls down

(Chorus)

Watch when the sky falls down
But she deserves what she gets

(Chorus)

Can't on pending
This is all I have a demon inside me
Well let's take it away
Was there today

Watch when the sky falls down
But she deserves what she gets

x2 Devil in me

(Chorus)

x3 Watch when the sky falls down
But she deserves what she gets
