

# Fame Factory, Every Step Of The Way (Andreas

you've lost that smile on your face  
there's not a trace  
since you said -my love is gone  
accused of being untrue  
I ask of you to tell me what's wrong

maybe we've let it fall out of our hands  
baby there's something you must understand

every step of the way you'll be all that I need  
'cause you conquered my heart and it's yours to keep  
and wherever you go and whatever it takes  
I'll be there every step of the way

you bring the best out of me  
I still believe that nothing compares to you  
but in the dark you go blind  
it's hard to find the right way to move

how can you think that our love is no good  
baby there's something you've misunderstood

every step of the way you'll be all that I need  
'cause you conquered my heart and it's yours to keep  
and wherever you go and whatever it takes  
I'll be there every step of the way

baby I'm sorry it doesn't make sense  
what can I do to break down your defence  
there is no other it's so out of sight  
why can't you see that it's all in your mind

every step of the way you'll be all that I need  
'cause you conquered my heart and it's yours to keep  
and wherever you go and whatever it takes  
I'll be there every step of the way

now and forever  
always together  
every step of the way
