## Fame Factory, Every Step Of The Way (Andreas

you've lost that smile on your face there's not a trace since you said -my love is gone accused of beeing untrue I ask of you to tell me what's wrong

maybe we've let it fall out of our hands baby there's something you must understand

every step of the way you'll be all that I need 'cause you conquered my heart and it's yors to keep and wherever you go and whatever it takes I'll be there every step of the way

you bring the best out of me I still believe that nothing compares to you but in the dark you go blinde it's hard to find the right way to move

how can you think that our love is no good baby there's something you've missunderstood

every step of the way you'll be all that I need 'cause you conquered my heart and it's yors to keep and wherever you go and whatever it takes I'll be there every step of the way

baby I'm sorry it doesn't make sence what can I do to break down your defence there is no other it's so out of light why can't you see that it's all in yor mind

every step of the way you'll be all that I need 'cause you conquered my heart and it's yors to keep and wherever you go and whatever it takes I'll be there every step of the way

now and forever always together every step of the way
