## Fame Factory, Hot - Ida Hedberg

(I want it hot, hot) (Hot, hot)

I woke up my heart was torn Ask for a founder I got a storm And ever since, you came around Was been lost Now has been found No more elusions It's time to make it right You got more than I ask for I can't wait until tonight

REF:

I want it hot, hot A hunger in me Oh, hot, hot You turn up the heat Babe, you're all I want With sugar on top Oh, hot, hot So don't stop

It took some time to figure out A change of hearts Without a doubt And ever since, my wish came true I wanna waste my love on you No more confusion It's time to make it right You got more than I wish for I can't wait until tonight

## REF:

(I want it hot, hot) A hunger in me (Hot, hot) You turn up the heat (I want it hot, hot) I say a hunger in me (Hot, hot) You turn... you turn up the heat Haaa...

No more elusions No more confusion (I take you till the top) (Never stop) (Give you all I got) I can't wait until (Tonight), tonight, (tonight), tonight...

## REF: (to the end)
