

# Fame Factory, Ida Hedberg - This Is How Love Goes

Been lost  
But now I've found  
I'm strong  
Though I'm all alone  
I need to spend some time with me, yeah  
I've walked  
City streets  
I've searched  
Perfect games in me  
Some excitements in my life, yeah

But I didn't you'd be gone  
Before I had even come home

This is how love goes  
Day by day  
Do you think you know  
The perfect way  
Of releasing love  
Letting it fly away

The day I remember the most is the day  
That I saw a ghost  
Now I'm, I am better off on my own, yeah

This is how love goes  
Day by day  
Do you think you know  
The perfect way  
Of releasing love  
Letting it fly away

Now there's was a time when I thought I'd never get by, no no  
But the memories help made me strong  
Helped me to fly, oh fly

This is how love goes  
Day by day  
Do you think you know  
The perfect way  
Of releasing love  
Letting it fly away

This is how love goes  
Day by day  
Do you think you know  
The perfect way  
Of releasing love  
Letting it fly away

Letting it fly away
