

Fame Factory, Summer Rain - Andre's/Pandora

I know that we've been going on
Like this... before
I know this feeling is hard to get back
Got no strain
Anymore

You used me
I was to blind to see
(Now I see)
What you did to me

REF:
Here comes the summer rain
To ease the pain
It feels so warm against my skin
And it whines away even wanna mean
Let me fall
In summer rain

Pushed away now
Lost my treel now
I been here before
Is it all you need?
Take a stand make you plead
Don't come here
Anymore

You used me
And it's time to say
(It's the teem)
Now will come us fray

REF:
Here comes the summer rain
To ease the pain
It feels so warm against my skin
And it whines away even wanna mean
Let me fall
In summer rain

And when's mean to might
We've droved from the fight
Now I know
We'll be all right

REF:
(To the end)

In summer rain
