

Fame Factory, We Are The One

You change my world
Turn it around
Making me strong
Help me to carry on now
You are my everything
A candle in the night
Don't change your way
I want you to stay

Refr:
Sometimes i feel like a lonely child
Sometimes i feel i'm the one
Even in the darkest of night stands a shining light
Glowing like a fire of love in our hearts
Even if the sky want come down
And there's nobody out there
Know it or even care
We are the one

Love is the light
That shines in your eyes
Hold on to love
Hold on to a strong emotion
The one who had everything
It make me feel allright
Love of my life
I won't let you down

Refr...

There is nothing else between us
all i want is love

Refr...
