

Fame Factory, Without You

Ooo you know what it means
The language that you speak
Ooo you can read your mind
The thoughts you hide and see

It's so hard to breath
It's so hard to move
I can't even sleep in this lonely room

Is this what i have to go trough
To be able to live my life without you
Is this what i have to feel like
To be able to live without you by my side

Ooo you know what it's like
The way you live your life
Ooo you know how it feels
To live within your dreams

And if i was running
I still couldnt hide
They told you remains till the end of time

Is this what i have to go trough
To be able to live my life without you
Is this what i have to feel like
To be able to live without you by my side

To be able to live my life without you

To be able to live without you by my side

It's hurting so bad
It's hard to define
I want you to pass yet stay on my mind
Illuisons i had are far from the truth
I'll never survive getting over you oh yeah

What i have to go trough to live life without you
I feel enable to go on in life

Is this what i have to go trough
To be able to live my life without you
Is this what i have to feel like
To be able to live without you by my side

Is this what i have to go trough
To be able to live my life without you
Is this what i have to feel like
To be able to live without you by my side

Without you
