

# Fame, The Wind Has Turned Around

I know  
When we lost every reason  
To ever make it through  
We didn't have the power

All alone  
Like nothing had happened  
A distance trace in the sand  
Bund to vanish into water

Then we found it again

Can you believe the wind has turned around?  
Everything lost event shyly us found  
Finally we're on a different way  
Bringing in to future day by day  
So can you believe it?  
Can you believe the wind has turned around?

And me  
Keep up were the wind blows  
And always stay the same  
But then we just be feeling

Still we found it again

Can you believe the wind has turned around?  
Everything lost eventfully us found  
Finally we're on a different way  
Bringing in to future day by day  
So can you believe it?  
Can you believe the wind has turned around?

We have to try  
Cause all we can  
Is finding fave  
In all our love again  
Again

Can you believe the wind has turned around?  
(Can you believe it turned around?)  
Everything lost eventfully us found  
Finally we're on a different way  
Bringing in to future day by day  
So can't you believe it?  
Can you believe it?  
Can you believe the wind has turned around?  
The wind has turned around
