

# Fancy, Bride In Black

Playing on the sand  
Endless playing  
Winter sun  
Shadows dance  
Cold winds  
Nowhere land  
Frozen heart  
Please my hands

Blue moon Overhead  
Wrapped round .....  
I will reach you  
In the name of love

Bride in black, bring her back  
To me  
Bride in black, bring her back  
Bride in black, bring her back

To me  
Bride in black, bring her back  
Bride in black

Crack in the universe  
Soldier reverse  
Darkness in our sacred dome  
Golden shine  
Coming from  
The endless rain  
Oh my dear  
Crystal shadows  
No white fear  
Rise and send  
Her back to me  
My love
