

Fancy, No Tears

In a far away land bright lights are going down
reachin' out for a hand
cold hearts walking around.

With a gun at my side
I'm like a sacrifice
now I feel like I'm jailed
stop the crying
have I failed ?

No tears
no children filled with fear
life bringing war so near
no tears

no children fear
- like a story - like hand in hand
- pain and glory - please understand.

Running wild in war
dark nights go on and on
children wait by the door
this fighting feels so wrong
are we slipping away
remembering yesterday ?

Gotta live in our world
take away fear
have no tears.

No tears
no children filled with fear
life bringing war so near
no tears

no children fear
- like a story - like hand in hand
- pain and glory - please understand.

Running wild running wild in war
dark nights go on and on
children wait by the door
this fighting feels so wrong
are we slipping away
remembering yesterday ?

Gotta live in our world
take away fear
have no tears.

No tears
no children filled with fear
life bringing war so near
no tears

no children fear
- like a story - like hand in hand
- pain and glory - please understand.
