

Fang, City Of Pain

Broken dreams shattered lives
loneliness suicide
Concrete walls enemies
hatred breeds your disease
Gave me a number and took away my name
dying (dying) dying in the city of pain
Emptiness tortured nights
Slabs of stone got no rights
Sharpen knives pools of blood
no way out forgotten son
Gave me a number and took away my name
dying (dying) dying in the city of pain
I am not a number I am a free man
I am not a number I am a free man
Blocks suppliers souless bin
trapped for life but we sin
Scream in pain windows barred
state raised and forever scarred
Gave me a number you took away my name
dying (dying) dying in the city of pain
