

Far-less, I Hope We Swim (Oceans)

Honestly
When I feel good
The planets seem aligned
The moon sits upon high
It's a faint blue glow
A beautiful snow
Like a major motion picture shows
But you didn't know
How could you know?

Ocean of you
Day to day has pulled me under
Those secrets that we keep are sinking
There is no memory of me

Honestly
I am empty without my only
Worthy adversary tormenting me
We ate strawberries amongst the leaves
Like some kind of anniversary
So happy showed
But how did you know?

This is where it ends... you'll see it
