

# Farewell, Cut You A New Smile

If you keep running your mouth  
I'm gonna cut you a new smile  
Bring those teeth to the front  
So I can knock 'em out, knock 'em out

Gimme a break  
this is the schoolyard shit you all know  
grow, another weak attempt to waste my time  
so ante up, and call my bluff  
or put the cigarette down and hop the first train out of town

Cause I'm done trying to shake you  
I'm dying to take you down  
you know i'd love to make you cause more than a mess this time

This is a common affair I tried to let go  
Was even willing to erase this time  
So knuckle up, I'm gonna leave you face down  
I've had enough, yeah that'll teach you not to mess around

Yeah, my father tried to tell me  
That there are bigger things to worry about  
No, there's not a decent explanation  
For this altercation  
Bottom line, you wear me out

(Chorus)

You can't shut me up  
Another victim of the childhood runaround  
You can't shut us down
