

# Farewell, September Brought The Fall

Left a Post-It on a wall  
But September, yeah, she brought the fall  
And with every corporate  
She'll be catching her death before long  
Before long

So contemptable at the card table  
Watching her cut the limes  
I'm so cynical, fucking miserable  
Deconstruct by design

She was only a lonely accomplice  
It was all for the best in the end  
But I died to make her realize  
I'm only trying to get through  
It's long overdue

I hope you're happy now  
Distance all around me  
To build bridges to you  
It's kind of funny how  
You're all over town  
Like it's the right thing to do

It's despicable how this criminal  
Gets away with the crimes  
She's so pitterful, often critical  
Watching others scrape by

She was only a lonely accomplice  
It was all for the best in the end  
But I died to make her realize  
I'm only trying to get through  
It's long overdue

You better look out if you  
Fall in love with a liar  
Cause, boy, she'll tear you apart  
She'll blow all the smoke in your eyes  
Better watch out for you  
Falling dumb into desire  
Cause, boy, she'll tap out your heart  
And leave you with nothing inside

She was only a lonely accomplice  
It was all for the best in the end  
But I died to make her realize  
I'm only trying to get through  
It's long overdue (x2)
