

# Farmer's Boys, Apparently

You came out of nowhere and found me here  
Was I prepared for it?  
You offered me inches but then I thought  
There must be more

Wait  
Only moments when I'm with you

One labour of love is a work of art  
Who could believe there's be two  
People together a world apart  
There must be more

Wait  
All the subtleties coming through

The sadness is the way I feel about you  
I sit around with nothing better to do  
Sadness is a look I've seen in your eyes  
I never knew till it took me by surprise

You losing your voice when I'm lost for words  
Was I surprised to find you  
Walking on water in your spare time  
There must be more

Wait  
Only moments when I'm with you  
Wait  
All the subtleties coming through

The sadness is the way I feel about you  
I sit around with nothing better to do  
And sadness is a look I've seen in your eyes  
I never knew till it took me by surprise  
Surprise  
Surprise

Wait  
Only moments when I'm with you  
Wait  
All the subtleties coming through

The sadness is the way I feel about you  
I sit around with nothing better to do  
And sadness is a look I've seen in your eyes  
I never knew till it took me by surprise  
And sadness is the way I feel about you  
I sit around with nothing better to do  
And sadness is a look I've seen in your eyes  
I never knew till it took me by surprise
