## Farmer's Boys, I Don't Know Why I Don't Like All

I don't know why I don't like all my friends

I see them. We laugh, have a drink, Don't know what they think They ask me, "where you going today?" Tell them the wrong way

What's happening? Can't sit on my own Don't want to stay home Misgivings, I like them again My loving I send

It's harder and darker in here Just can't find an end I know them, I just don't know why I don't like all my friends
