

Farmer's Boys, Walkabout

Go walkabout
Don't move too slow
I really think this area's the place to go
See my boots
Done up real tight
Another shameless blessing in a thin disguise

Who is that man in brown
Who followed me around?
I never went to town
I just hung around

Well it's the place to go
So don't you move too slow
It's not so far away
What more can I say?

Is this the way? I can't decide
I only know the places when I see the signs
Full of life get up and go
It's just the kind of feeling when I'm on the row

Where is that winding lane
That takes me home again?
I walk right through the trees
Down on my knees

Well it's the place to go
So don't you move too slow
It's not so far away
What more can I say?

We'll walk about
Surround ourselves in shades of green
We might get lost
But I can read the signs

Go walkabout
Don't move too slow
I really think this area's the place to go
See my boots
Done up real tight
Another shameless blessing in a thin disguise

Who is that man in brown
He really brought me down
I never went to town
I just hung around
