

# Fase Yoda, Because Of You

I keep taking meds cause I ain't satisfied  
When I'm on these pills you cannot recognize  
Hell inside my head I'm feeling paralyzed  
With a backwood on my side I'm singing lullabies  
(Oh)

Can you see?  
Living on my own, broken fantasy  
When the angels call my name I'm going heavenly  
With the devil on my back, he takes control of me  
Baby don't wait on me, oh  
Because of you, I know I'll be dead off the meds  
All because of you, I gotta relive what I said  
All because of you, imma leave my best when I rest  
All because of you  
You ooh

Baby I'm living a movie, imma be chosen material  
I wanted love, you breaking apart, so fuck it I pick up the minerals  
Pick up the glove, I'm knocking it on, I'm fighting for better residuals  
I used to be broke in the back of the woods, now I'm riding in leather interior  
Pull up in a Maybach, imma swerve and I'm breaking the law  
Iced out with these Raybans, imma make it I'm taking it all  
I got these racks in my pocket, fuck it I'm setting the bar  
I got this pain all over my body, you know I be taking it wrong

Can you see?  
Living on my own, broken fantasy  
When the angels call my name I'm going heavenly  
With the devil on my back, he takes control of me  
Baby don't wait on me, oh  
Because of you, I know I'll be dead off the meds  
All because of you, I gotta relive what I said  
All because of you, imma leave my best when I rest  
All because of you  
You ooh

Things will get a little different, want your love I'm wishing  
Your hearts still in Nevada, got bitches I'll admit it  
Take that L, better row your boat, I'm living I can't trip it  
Pour my four, better love some more, I'm dying I can't live it, oh  
I told you my feelings, I wrote a little book and you bringing it down, huh  
I wanted to grow, you're pinning it up, you're taking it down  
Wanted to leave, wanted to be, you fucking around  
Ain't no regular sound, oh

Can you see?  
Living on my own, broken fantasy  
When the angels call my name I'm going heavenly  
With the devil on my back, he takes control of me  
Baby don't wait on me, oh  
Because of you, I know I'll be dead off the meds  
All because of you, I gotta relive what I said  
All because of you, imma leave my best when I rest  
All because of you  
You ooh
