

# Fast Food Rockers, I Love Christmas

I've waited the whole year through  
Spring Summer and Autumn too  
Oh, but this is the season for me and you  
Am I crazy?  
To hope that you'll want me?

The lights on the Christmas tree  
Shine bright and I can't believe  
That I've waited to tell you on Christmas Eve  
How I love you  
And you're the gift that I long for

[Chorus]  
I love Christmas time  
When the bells ring in this heart of mine  
Just like Santa out on his sleigh tonight  
I love Christmas

Who knows what the future plans  
In this winter wonderland  
But with you by my side and your hand in my hand  
We can make it  
Whatever the weather

(Chorus)  
I love Christmas time  
When the bells ring in this heart of mine  
Just like Santa out on his sleigh tonight  
I love Christmas

Hey Santa let it snow  
With the season's hope and some mistletoe  
If we're arm in arm then the world will know  
I love Christmas

Gonna jump into Santa's sack  
Just waiting to be unwrapped  
Oh and I'll be the present you won't take back  
In the morning, the snow will be falling

Sweet harmony fills the air  
So sweet but it can't compare  
To the joy and the laughter that we will share  
'Coz together  
We can make it forever

(Chorus)  
I love Christmas time  
When the bells ring in this heart of mine  
Just like Santa out on his sleigh tonight  
I love Christmas

Hey Santa let it snow  
With the season's hope and some mistletoe  
If we're arm in arm then the world will know  
I love Christmas  
And I love you
