

Fastball, Red Light

I went walking through the red light
Through the dark night, in the winter
Pretty girls in the window
Pretty girls staring back at me
I went walking cross the St. Charles
To the Argyle downtown
Met my friends in the back there
You know we always have a really good time

And I feel so alive
And I feel so free
Always listening to our favorite songs
They play them all night long
They play them all night long

I woke up with a girly
Way too early. Oh my head!
I went walkin' to the newsstand
All the suits staring back at me

I went walking down Main Street
Down to South Beach, Oh I crawled
I went looking for the bee sting

And I feel so alive
And I feel so free
Always listening to our favorite songs
They play them all night long
They play them all night long

At the end of the world
At the end of the world
Will I see you again
At the end of the world
Take me home
All the way
