

Fastball, Someday

Took a ride up to Reno
Diamond star halo
Lookin' around
Pushin' blues at the station
I feed the frustration that's kickin' around

But you don't even know what day it is
You don't even know my name yet
Baby take a look at yourself
Heaven sees what nobody else can see
You'll be free, Someday

Yeah it's alright
It's just a matter of time
'Till I find my feet
You've got your education
Know how to work you're persuasion
You ain't foolin' me

'Cause you don't even know what day it is
You don't even know my name yet
Baby take a look at yourself
Heaven sees what nobody else can see
You'll be free, Someday

You don't even know what day it is
You don't even know my name yet
Baby take a look at yourself
Heaven sees what nobody else can see
You'll be free
