

Fastway, Feel Me, Touch Me (Do Anything You V

Tonight's the night
When the groovin's too tight
You feel you just got to pull all the strokes
So you take her outside
Fool around for a while
Show her things a woman should know

Feel me, touch me
Do anything you want
You want

So you're aimin' to tease
And the lady says please
Show me things I really ought to know
Ask some advise
I really hypnotise
Rev-up and let yourself go

Feel me, touch me
Do anything you want
You want

Dynamite and glycerine
Couldn't change the way I feel about you
And I think you should know
But one thing's for sure
You ain't all that poor
When it comes to makin' love

Feel me, touch me
Do anything you want
You want
