

Fastway, You Got Me Runnin'

Look what you've gone and done
To my heart and my life
Come back to me sunshine
Wipe this cloud from my sky

Dreaming up a crazy idea
Want to make you jump and shout
Don't you ever give into someone
That'll make you decide

You got me runnin'
You got me comin'
Just like I never did before

Just take back what you said to me yesterday, child
'Cause now you don't want me angry
Or else I'll kick from inside
Pickin' me up, shakin' me down, shakin' me down

Dreamin' up a crazy idea
Want to make you jump and shout
Don't you ever give into someone
That'll make you decide

You got me runnin'
You got me comin'
Just like I never did before
You got me comin'
You got me runnin'
Just like I never did before

You got me, you got me
Just like, just like
Just like I never, never ever
I know and I'm gonna tell you

You got me runnin'
You got me comin'
Just like I never did before
You got me comin'
You got me runnin'
Just like I never did before

You got me, you got me
Just like I never did before
