

Fatal Flowers, Little Man

switch on the telly
let the world pass by
switch off your mind
have another bite

cause is it you that makes it happen?
Is it you that holds the weapon?
You that fires the shot?
Is it you that makes the blood flow?
You that makes the world go?
While you can't really do a lot?

cause you're just a little man
doesn't mean you can just wash your hands and play again
cause you're just a little man
doesn't give you the right to turn your face the other side

switch on the telly
let the world pass by
switch off your mind
have another bite

there was nothing you could do
you were just a part
of a far to big a system
there was nothing you could do
you didn't threw them out there
you didn't threw the party
was it you that find the cure
6 millions tunes
