

Fatal Smile, Butterflies

She's got something that makes me wanna fly
She takes me higher, till I reach and touch the sky
She gives me glory and a love that makes me shine

I can recognise it,
when she comes around
Nothing's gonna stop me now

Butterflies
when I see her smile
I've got Butterflies
dancing deep inside

I know and she knows it happens all the time
She makes me nervous I've never felt so alive

Miracles and wonders,
truly come around
I just really want her now

Butterflies
when I see her smile
I've got Butterflies
dancing deep inside

Lonely days are gone
I've been waiting for so long
Lonely days are gone
and the Butterflies they are dancing to my song

Butterflies
when I see her smile
I've Butterflies
dancing deep inside

I've got Butterflies, I feel Butterflies
I've got Butterflies, I feel Butterflies
