Fatboy Slim, Put It Back Together (featuring Dam

I was moving forward
From the point I've come from
I was rolling lowly
This is our song now

I was moving forward
From the point I've come from
I was rolling lowly
This is our song now

Gotta see it
Nothing means I gotta gotta
Feel it
Everything is out I gotta
Hold out
Everything is out I gotta
Day out
Just invite them
Gotta
Bore them
Til I take us out
I gotta feel like
Every single line
I gotta
Clean it out to the side
When we're not down and out

Put it back together
Put it back together
Put it back together
Put it back together
Put it back together (yeah yeah yeah x3)

Burning down the city
Warning out of something
But I need to find it
'Cause I got no sun down

Dug a whole was so fun
And a taste thats floating
What it doesn't meet no
Place to silent sleep now

I gotta feeling
Doesn't mean I sad because I
Love me
Everything around it isn't
better
If you sing it loud and I
Jam myself to dawn
I got
So much dissing at the side and
When its
Just another ride and you
Sow yourself to the cat
Bet it

Put it back together
Put it back together
Put it back together
Put it back together
Put it back together (yeah yeah yeah x3)
