

FAXMYEX, FLOATIN (feat. Natalia Samuel)

I wanna know where you at and where you been
Give me your keys Imma take us for a ride
I have my dress on it's one of your favourites
Your favourite, boy

Can't get you out of my mind
It's terryfing
Just hold me tight and I'll give you
All what's mine
Got no excuses if you really wanna try
Baby

These moments with you every night
I feel like I'm floatin'
I feel like I'm floatin'
I don't care about them now
I feel like I'm floatin'
I feel like I'm floatin' with you
With you
I feel like I'm floatin'
I feel like I'm floatin' with you
With you
I feel like I'm floatin'
I feel like I'm floatin'

Is it all there for us?
Is it everything true?
I opened up to you
Does it mean something new?
And it hurts when you're closing every door
I been falling for you and yeah I fell for you
Did I change? Did I do something wrong?

Can't get you out of my mind
It's terryfing Just hold me tight and I'll give you
All what's mine
Got no excuses if you really wanna try
Baby

These moments with you every night
I feel like I'm floatin'
I feel like I'm floatin'
I don't care about them now
I feel like I'm floatin'
I feel like I'm floatin' with you
With you
I feel like I'm floatin'
I feel like I'm floatin' with you
With you
I feel like I'm floatin'
I feel like I'm floatin'
