

Feable Weiner, Lameface

I know that youre saying something
But I dont know if I wanna hear it
You say that youre right but youre wrong
Now I know that I just dont wanna hear it
And yet you go on

You said this song was lame and
I said so is your face
You said this song could be better
And I said so could your face

Dont care if you don't wanna hear it
Ill play it as loud as I want
Cuz its mine and you're not sposed to get it
Ill play it as loud as I want
So you should move on

You said this song was lame and
I said so is your face
You said this song could be better
And I said so could your face

You said this song was lame and
I said so is your face (whoa)
You said this song could be better
And I said so could your face

And I said and I said and I said
And I said and I said and I said
And I said and I said and I said
And I said and I said and I said...woo
