

Fear Factory, I Like The Way

Written & composed by Phil Wilde, Andy Janssens, Kate Ryan & Steven Trace

Every day I think about you
You're every ray of light that shines

You're in my dreams
Pictures in my mind
I'm closer to you now
Time after time after time after time

Chorus
I like the way you hold me baby you know it...
Show me your love
I like the way you move me baby you know it...
Show me your love

I like the way, I like the way,
I like the way you hold me baby
I like the way, I like the way,
I like the way you hold me baby

Nothing was meant to last forever
And love is the reason we survive

Animal instincts
Expression never lies
Capture my senses
Time after time after time after time

Chorus
