

Fear Factory, Terminate

try!

All that is dead
around me
lifeless in the way of catastrophe
burning in my mind I am not deceived
judgement into my own mortality

[chorus]
Now that the soul is free
I sever ties of man and machine
now that the soul is free
I've bled my heart of all it can bleed

I lit the spark
ignited the fuse
destroyed the lies
and saw absolute truth
from out of darkness and into the light
the future is wide open and is all in my sight

[repeat chorus]

try!
war!

you can't stop it, you can't kill it,
and it won't stop coming until you're dead

[repeat chorus] x2
