

# Feder, Control (feat Bryce Vine & Dan Caplen)

i got another day  
i am try to find the words to  
put things reverse  
if you could  
what you see  
the you know what you are  
everything I want  
everything that I want

maybe go away  
you not supposed to do  
your body can do the rest  
and if you need a really my vacation  
press toy check and guess my chest

do you hear the rhythm of my heart  
full of bitten of my soul  
when I with you I lose control  
your breath lap my tongue  
.. on my thoughts  
when I with you I lose it  
when I with you I lose control  
when I with you I lose control
