

Feeder, Bring It Home

You can make it better in this world of sin
Wanna make it better, wrapped in arms of silk
You're not alone, yeah
You're not alone

So you wanna feel better, in your crazy heads
Learn to breath the air, drown away despair
You wanna swim oceans, and feel the sun
You wanna get closer to the one you love
You're not alone, yeah
You're not alone

Who's gonna bring it back
Who's gonna bring it back, bring it home
Who's gonna send it back
Who's gonna send it back, bring it home

So you wanna feel better, in this world of sin
Wanna watch the sunset turn from gold to pink
You're not alone, yeah
You're not alone

So you wanna feel better, cause it still hurts
Find yourself the answer, someone you can trust
You wanna climb mountains and reach the stars
You wanna lie next to the face you know
You're not alone, yeah
You're not alone

Who's gonna bring it back
Who's gonna bring it back, bring it home
Who's gonna send it back
Who's gonna send it back, bring it home
Bring it home, bring it home, bring it home
Bring it home

You're not alone, yeah
You're not alone
