

Feeder, Heads (B-Side)

Looking at all of his friends
Wishing he could be like them
Running on glass floors again
Just so you can be knocked down
Swimming in oceans of blame
Trying as it pulls you in
Wrapping your heart up in chains
Cause someone always lets you down

Get inside my head
Get inside my head
Get inside my head
And light it up again

I wonder do you feel the same
Waiting for the days to end
Lying my thoughts dead in pain
They squander you and everyone
Flying on feelings again
Biting my poison tongue
Climbing up mountains of pain
Just so you can be knocked down

Get inside my head
Get inside my head
Get inside my head
And light it up again

Get inside my head
Get inside my head
Get inside my head
And light it up again
