

Feeder, Helium

Fuel emotions, killing me
Pure devotion, cut and bleed,
Your the crystal, the ecstasy,
The drug that keeps feeding me.
So come on.

Torn together we sow the seed,
Bring the pleasure back for free,
The world is frozen but
I can taste new life every time I breathe.

So come on, get in,
Take a ride, till you sink,
Come on, get in,
Let's feel a new high kicking in.

Change the system, break the shape,
New connection hands to make,
Find the honey and learn to taste again,
Bring it back again,
So come on.

Burn forever, learn to feed,
Find the pleasure it's yours to keep.
The world is frozen,
But I can taste new life every time I breathe.

So come on, get in,
Take a ride, till you sink,
Come on, get in,
Let's feel a new high, kicking in...
Get in,
Take a ride, till you sink,
Come on, get in,
Let's feel a new high kicking in...

Come together, feel the heat,
Suck the life left right out of me,
The world is frozen,
But I can taste new life every time I breathe.
Every step I take,
Every drop I bleed

So come on, get in,
Take a ride, till you sink,
Come on, get in,
Let's feel a new high kicking in...
Get in,
Take a ride, till you sink,
Come on, get in,
Let's feel a new high kicking in...
Get in,
Take a ride, till you sink,
Come on, get in,
Let's feel a new high kicking in...
