

# Feeder, Itsumo

Too many times I watched you leave  
I didn't say anything  
Too many lies inside that bleed  
And now we're running out of time  
Out of line, out of faith, out of reason  
Some might say  
I guess there's somewhere we can stay all night  
So we can turn it all around

Don't say that you know me,  
unless you wanna stay around  
Don't say that you know me  
Show me, shoot me down

Itsumo, it's the only way  
Stay  
Itsumo, don't take our love away  
Our moment can't be found

Too many sides that you can't see  
I wonder if we ever change  
All that divides us is the sea  
Rhyming words making sense  
Out of line, out of faith, out of reason  
Some might say  
I guess there's somewhere we can stay all night  
So we can turn it all around

Don't say that you know me,  
unless you wanna stay around  
Don't say that you know me  
Show me, shoot me down

Itsumo, it's the only way  
Stay  
Itsumo, don't take our love away  
Our moment can't be found

Itsumo, it's the only way  
Call me out in my defence  
Call me out in my defence

Don't say that you know me,  
unless you wanna stay around  
Don't say that you know me  
Show me, shoot me down

Itsumo, it's the only way  
Stay  
Itsumo, don't take our love away  
Our moment can't be found

Itsumo, it's the only way  
Call me out in my defence  
Call me out in my defence  
Call me out in my defence
