

# Feeder, Pain On Pain

Stay for life, for life  
All you discover  
Stay for life, for life  
This moment together  
To heal yourself, love can heal  
Can't watch you fall

Pain on pain  
Don't come back here again  
Shame on pain  
Took the last breath away

Save yourself, yourself  
Lost for a second  
Save yourself, yourself  
Bury the conscious  
And heal yourself, you can heal  
Can't watch you fall

Pain on pain  
Don't come back here again  
Shame on pain  
Took the last breath away  
Pain on pain

Pain (x4)  
Yeah

Wait for love, for love  
You know it can happen  
Wait for love, for love  
The touch of a hand, to heal yourself  
You can heal, can't watch you fall

Pain on pain  
Don't come back here again  
Shame on pain  
Took the last breath away
