

Feeder, Reminders

You got it all worked this living
You made it all whacked out this giving thing
Torn a soul and left it kicking
Drilled a hole right through my perfect world

I'm staring at pictures now
Tearing pictures down, yeah
It's pulling me deeper down
Every day reminds me

Love has left me high and twisting
Cut a wire and watch me fall back in
Telepathic opera tics
Sucked the image clean out of my brain

I'm staring at pictures now
Tearing pictures down, yeah
It's pulling me deeper down
Every day reminds me of you

I'm staring at pictures now
Tearing pictures down, yeah
It's pulling me deeper down
Every day reminds me of you
Every day reminds me

You made it all whacked out this living
Torn a soul and left it kicking

I'm staring at pictures now
Tearing pictures down, yeah
It's pulling me deeper down
Every day reminds me of you

I'm staring at pictures now
Tearing pictures down, yeah
It's pulling me deeper down
Every day reminds me
