

Feeder, Rubberband

Jumping into streams of nectar
Falling through these clouds of silver
Reaching for these angels faces
Waking up in fields of feathers
Its tied me up inside its tied me up inside

You spin me around you lift me right off the ground
You twist me around I feel like a rubber band
You spin me around then you wind me back up
Cause I'm your rubber band

Crashing onto cotton wool floors
Breaking my fall if I land short
Wrapped up in these arms of velvet
Drifting in sea of regret
Its tied me up inside its tied me up inside
I've got to pull myself together
Its tied me up inside Its tied me up inside

You spin me around you lift me right off the ground
You twist me around I feel like a rubber band
You spin me around then you wind me back up
Cause I'm your rubber band

I wish I knew what to say but words escape me today
I wish I knew what to say just take away the pain
Jumping into streams of nectar
I've got to pull it back together
Its tied me up inside its tied me up inside
Its tied me up inside its tied me up inside

You spin me around you lift me right off the ground
You twist me around I feel like a rubber band
You spin me around then you wind me back up
Cause I'm your rubber band

You spin me around you lift me right off the ground
You twist me around I feel like a rubber band
You spin me around then you wind me back up
Cause I'm your rubber band
