

Feeder, Sattelite News

Sending a hole right back,
Waiting for heart attakcs,
Watching the days collide,
Changing with the weather,
Trying to keep it clean,
Slither on broken tears,
Searching for waYs to cure,
You can make it better,
Cos you won't ever keep me down,
You can never keep me down,
I wanna lift myself up to the sky,
Sattelite the stars, as I pass by,
I wanna leave it all just for a while,
I'll be sattelite news!
I wanna lift myself above the clouds,
Get the ropes around me,
See me shine, shine like the sun!
Condition can battle for youth,
To the uncomfort foods,
Sending back down the news,
The look can make us better,
Cos you won't ever keep me down,
You can never keep me down,
I wanna lift myself up to the sky,
Sattelite the stars, as I pass by,
I wanna leave it all just for a while,
I'll be sattelite news!
I wanna lift myself above the clouds,
Get the ropes around me,
See me shine, shine like the sun!
I'll shine like the sun!
Oh, shine like the sun!
I'll shine like the sun!
Shine like the sun!
I wanna lift myself up to the sky,
Sattelite the stars, as I pass by,
I wanna leave it all just for a while,
Cos you won't ever keep me down,
You can never keep me down,
I wanna lift myself up to the sky,
Sattelite the stars, as I pass by,
I wanna leave it all just for a while,
I'll be sattelite news!
I wanna lift myself above the clouds,
Get the ropes around me,
See me shine, see me shine, shine like the sun!
I wanna lift myself up to the sky,
Sattelite the stars, as I pass by,
I wanna leave it all just for a while,
I'll be sattelite news!
I wanna lift myself above the clouds,
Get the ropes around me,
See me shine, shine, shine like the sun!
I'll shine like the sun!
Shine like the sun!
