

# Feeder, Save Us

Face against the ground  
Torn, but you can stand  
Your will is strong, but you have now  
I know you can save us  
Faith is on your side  
Fears you cant deny  
Its burned a hole, right through your soul  
But I know you can save us  
Save us now  
Dont say goodbye  
I know you can save us  
Dont wave goodbye  
But nothing can brake us  
Dont say goodbye  
I know you can save us  
You can bring us back again  
Born to be as one  
Turn to face the sun  
Your will is strong, but you have now  
I know you can save us  
Save us now  
Dont say goodbye  
I know you can save us  
Dont wave goodbye  
But nothing can brake us  
Dont say goodbye  
I know you can save us  
You can bring us back again  
You can bring us back again  
Face against the ground  
Torn, but you can stand  
Your will is strong, but you have now  
I know you can save us  
Dont say goodbye  
I know you can save us  
Dont wave goodbye  
But nothing can brake us  
Dont say goodbye  
I know you can save us  
You can bring us back again  
Dont say goodbye  
I know you can save us  
Dont wave goodbye  
But nothing can brake us  
Dont say goodbye  
I know you can save us  
You can bring us back again  
You can bring us back again
