

Feeder, Tracing Lines

I had a dream, I had a vision
I fell into water, the water was deep
I made a decision, promised myself
She's my direction, down to the south

All my life, I can't believe it
Tracing lines but no one sees it
I wish that I could take a rest

Today's the day I still believe
Tracing lines until they meet
Today's the day I found a new way out
Set my spirit free

Live by the notion, all we can be
Self preservation, stopping the bleed
All is decided, gathered and sewn
Guided by wisdom, from father to son

All my life, I can't believe it
Tracing lines but no one sees it
I wish that I could take a rest

Today's the day I still believe
Tracing lines until they meet
Today's the day I found a new way out
Set my spirit free

'Cause I had a dream, I had a vision
I fell into water, the water was deep

'Cause all my life, I can't believe it
Tracing lines but no one sees it
I wish that I could take a rest

Today's the day I still believe
Tracing lines until they meet
Today's the day I found a new way out
Set my spirit free

Today's the day I still believe
Tracing lines until they meet
Today's the day I found a new way out
Set my spirit free
