

# Feeling Left Out, Breathe

no holes in the roof  
the rain can't make it's way in  
we're sittin' down  
you can lay back down  
keep your head down  
they'll think we're asleep  
although you're there  
because i'll still feel you breathe

it's raining it's pourin  
everyone's snoring  
drive through the night  
i swear we're almost old

keep your head down  
they'll think we're asleep  
although you're there  
because i'll still feel you breathe

wiper plates go through the rain  
engine helps and keeps us always to one side  
across the pavement
