

# Feeling Left Out, The New Song

Go quit your job Joe and do what you do  
Go be a writer Joe and work those issues  
Go break some hearts Joe they'll forget you  
Just do what you do

Go write that great song  
Strong song  
The act like nothings wrong song  
The blame song  
The same song  
The here's why you where wrong song  
The new song  
The old song  
The this all sounds the same song  
Are you happy  
Are you happy

Hit the road Joe and do what you do  
It's been a while Joe and they all miss you  
They want those songs Joe fill out those shoes  
Just do what you do

Go write that great song  
Strong song  
The act like nothings wrong song  
The blame song  
The same song  
The here's why you where wrong song  
The new song  
The old song  
The this all sounds the same song  
Are you happy  
Are you happy

Go write that great song  
Strong song  
The act like nothings wrong song  
The blame song  
The same song  
The here's why you where wrong song  
The new song  
The old song  
The this all sounds the same song  
Are you happy  
Are you happy
