

# Fefe Dobson, Don't Go (Girls & Boys)

I was ridin' my bike on 43rd street  
Past the station and  
There's one person without a seat  
Got my sunnies 'cause the sun just  
Keeps on lookin' right through me  
Ain't nobody gonna stop me  
Baby can't you see

[Chorus:]

Don't go  
Girls and boys should be together  
Don't go  
Girls and boys can rule the world  
Don't go  
Boys and boys should be together  
Don't go  
Girls and girls can rule the world

I've got jumbo polka-dotted trousers  
With the empty pockets  
It's funny to me that the two of us  
Could fit in one pair  
Kings and queens on magazines  
That have me on the cover  
But none of that compares to  
Just one night alone with you  
And what you do

Don't go  
Girls and boys should be together  
Don't go  
Girls and boys can rule the world  
Don't go  
Boys and boys should be together  
Don't go  
Girls and girls can rule the world [x2]

I was just ridin' my bike on 43rd street  
Past the station and there's  
One person without a seat  
You got me wishin' I was just a little  
Squirrel at your window  
Got me whistlin' a song  
I thought I never could like  
Just for you

Don't go  
Girls and boys should be together  
Don't go  
Girls and boys can rule the world  
Don't go  
Boys and boys should be together  
Don't go  
Girls and girls can rule the world [x3]

Boys and boys should be together  
Don't go  
Girls and girls can rule the world
