

Feist, Lover's Spit

All these people drinking lover's spit
They sit around and clean their face with it
And they listen to teeth to learn how to quit
Tied to a night they never met...

You know its time that we grow old and do some shit
I like it all that way
I like it all that way...

All these people drinking lover's spit
Swallowing words while giving head
They listen to teeth to learn how to quit
Take some hands and get used to it...
