

# Feltbeats, Father Of Mine

And father of mine, please bring back the times  
And father of mine, remind me of my childhood times  
And father of mine, say again feel like Ive missed your advice, please  
And father of mine, divorce had its price  
I havent seen you quite as much as Id like  
Its my fault as well  
I just get caught up in my life  
And right now I need your advice  
Guidance with my life  
Open some doors please show me some more  
You can beat me at your favourite sport just like you did before.  
And father of mine, please bring back the times  
And father of mine, remind me of my childhood life, oh  
And father of mine, say again fell like Ive missed your advice, please  
And father of mine, divorce had its price  
And so through all my pain and tears Im still holding onto those years  
And so through all my pain and tears Im still holding onto those years  
And father of mine, please bring back the times  
And father of mine, remind me of my childhood lifetimes  
And father of mine, say again fell like Ive missed your advice  
And father of mine, divorce had its price
